1 Introduction

1.1 Policy statement

The purpose of this document is to set out the requirements for Hounsfield Surgery to take the appropriate actions for safeguarding children, young people and adults at risk of harm or abuse. This practice adopts a zero-tolerance approach to abuse, ensuring that there are robust procedures in place for the effective management of any safeguarding matters raised.

1.2 Status

This document and any procedures contained within it are contractual and therefore form part of your contract of employment. Employees will be consulted regarding any modifications or change to the document's status.

1.3 Training and support

The practice will provide guidance and support to help those to whom it applies to understand their rights and responsibilities under this policy. Additional support will be provided to managers and supervisors to enable them to deal more effectively with matters arising from this policy.

2 Scope

2.1 Who it applies to

This document applies to all employees of the practice and other individuals performing functions in relation to the practice, such as agency workers and locums.

2.2 Why and how it applies to them

This document details the requirements of staff, both individually and collectively, to comply with extant legislation and is to be read in conjunction with associated NHS England safe-guarding documentation and guidance.

The practice aims to design and implement policies and procedures that meet the diverse needs of our service and workforce, ensuring that none are placed at a disadvantage over others, in accordance with the Equality Act 2010. Consideration has been given to the impact this policy might have in regard to the individual protected characteristics of those to whom it applies.

3 Definition of terms

3.1 Safeguarding

Safeguarding means protecting people's health, well-being and human rights, and enabling them to live free from harm, abuse and neglect. It is fundamental to high-quality health and social care.¹

3.2 Physical abuse (children)

Physical abuse can involve any of the following: burning or scalding, drowning, suffocating, hitting, shaking, throwing, poisoning or other means of causing physical harm to a child.

3.3 Emotional abuse (children)

Emotional abuse is the constant emotional mistreatment of a child, the intention of which is to cause significant adverse effects on the emotional development of the child. Emotional abuse also includes overprotection and the restriction of a child learning or partaking in normal social interaction.

3.4 Sexual abuse (children)

Sexual abuse is the enticement or forcing of a child/young person to participate in sexual activities. This involves penetration or non-penetrative acts, physical contact or non-contact activities such as the encouraging of a child or young person to watch sexually inappropriate content.

3.5 Sexual exploitation (children)

Child sexual exploitation (CSE) is when an individual takes sexual advantage of a child or young person (anyone under the age of 18) for his or her own benefit. Power is developed over the child or young person through threats, bribes, violence and humiliation or by telling the child or young person that he or she is loved by the exploiter. This power is then used to induce the child or young person to take part in sexual activity.²

3.6 Neglect (children)

Neglect is the continued failure to ensure that a child's physical and psychological needs are met, resulting in significant impairment of the development of the child. Examples of neglect include failing to provide adequate supervision, failing to respond to emotional needs, a lack of protection (from emotional or physical harm), failing to provide clothing, accommodation and food.

3.7 Physical abuse (adult)

¹ <u>Safeguarding People CQC Definition</u>

² <u>NHS(E) Child Sexual Exploitation</u>

Physical abuse can involve any of the following: burning, scalding or exposure to extreme temperatures (hot and cold), shaking, hitting, pushing, pinching, inappropriate restraint, in-appropriate use of medication, female genital mutilation and deprivation of liberty.

3.8 Emotional abuse (adult)

Emotional abuse is behaviour that has a detrimental effect on the individual's emotional wellbeing and may result in distress, e.g. bullying, verbal abuse, intimidation, isolation, overprotection or a restriction or withdrawal of an individual's human and/or civil rights.

3.9 Sexual abuse (adult)

Sexual abuse includes sexual exploitation, including the involvement of an adult in: a sexual activity they have not consented to, the encouragement to watch any form of sexual activity, coercion into any form of sexual activity or the involvement of the adult in such scenarios when they lack the capacity to consent.

3.10 Neglect (adult)

Neglect has two forms, it can be intentional or unintentional, and it results in the needs of the individual not being met. Examples of intentional neglect include failure to provide the required level of care, preventing care from being administered, failure to provide access to services such as health and social care, education and other support services. Unintentional neglect may include a failure to provide the at-risk individual with the necessary level of care as the responsible person (e.g. the carer) fails to understand the needs of the individual.

3.11 Self-neglect (adult)

Self-neglect includes a lack of self-care, a lack of care of one's environment and the refusal of services that would reduce the risk of harm. Self-neglect may occur because the individual is unable to care for or manage themselves, they are unwilling to manage themselves, or both.

3.12 Discriminatory abuse (adult)

Discriminatory abuse occurs when values, beliefs or culture result in a misuse of power, resulting in denied opportunities. Motivating factors include age, gender, sexuality, disability, religion, class, culture, language, race or ethnic origin.

3.13 Institutional (adult)

Institutional abuse refers to a lack of respect in a health or care setting which involves routines that meet the needs of staff as opposed to the needs of the individual at risk, and violate the individual's dignity and human rights.

3.14 Financial abuse (adult)

Financial abuse is the use of an individual's funds, property, assets, income or other resources without their informed consent or authorisation. This is a crime. Financial abuse includes theft, fraud, exploitation, misuse of benefits or the misappropriation of property, inheritance or financial transactions.

3.15 Modern slavery (adult)

This includes slavery, human trafficking, servitude and forced labour. Individuals are coerced, deceived and forced into a life of abusive and inhumane treatment.

Further information and guidance can be found in the Modern Slavery and Human Trafficking Guidance document

3.16 Female genital mutilation

Female genital mutilation (FGM) comprises all procedures that involve partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons. Hounsfield Surgery has a separate FGM Policy.

4 Policy

4.1 Overview

The safeguarding of children, young people and adults at risk is crucial for healthcare professionals working at Hounsfield Surgery. It is essential that all staff are continually aware of their responsibilities to detect individuals at risk, provide the necessary support to those affected by safeguarding issues and ensure a high-quality service, including the appropriate sharing for information.

4.2 Practice statement

Hounsfield Surgery recognises that all children, young people and adults at risk have a right to protection from abuse and neglect, and the practice accepts its responsibility to safeguard the welfare of such persons with whom staff may come into contact.

We will respond quickly and appropriately where information requests are made, abuse is suspected or allegations are made in relation to children, young people or adults at risk.

Furthermore, we will give children, young people, their parents and adults at risk the chance to raise concerns over their own care or the care of others and have in place a system for managing, escalating and reviewing concerns.

The practice will ensure that all staff are given the appropriate safeguarding training, proportionate to their role, and that they attend annual refresher training. New members of staff will receive safeguarding training as part of their induction programme.

Safeguarding responsibilities will be clearly defined in job descriptions and there are nominated leads for safeguarding adults and children.

4.3 Principles of safeguarding

It is possible that the GP may be the individual who identifies a child, young person or adult as being at risk. It is therefore essential that clinicians act appropriately and in a timely manner to reduce the risk of long-term abuse, in accordance with the six principles of safeguard-ing:³

- 1. Empowerment people being supported and encouraged to make their own decisions and informed consent
- 2. Prevention it is better to take action before harm occurs
- 3. Proportionality the least intrusive response appropriate to the risk presented
- 4. Protection support and representation for those in greatest need
- 5. Partnership local solutions through services working collaboratively
- 6. Accountability accountability and transparency in safeguarding practice

The practice supports the safeguarding principles by ensuring that:

- There is a safe recruitment procedure in place, including the effective use of the Disclosure Barring Service (DBS)
- Clear lines of accountability exist within the practice for safeguarding
- All staff are aware of the safe whistle-blowing process
- All staff understand the requirement to work in an open and transparent way
- All patients are treated with dignity and respect regardless of culture, disability, gender, age, language, racial origin, religion or sexuality
- All staff adhere to the guidance in this policy and that given in the referenced texts
- All staff will effectively interact with the relevant agencies, sharing information appropriately
- All staff who work with children, young people and adults at risk are responsible for their own actions and behaviour and should avoid conduct that may lead another responsible person to question their motivation and/or intentions

4.4 Mental capacity

The Mental Capacity Act (MCA) 2005⁴ offers a framework that details the rights of individuals should capacity be questioned. The principles of the MCA must be adhered to and are applicable to safeguarding.

Should an individual at risk opt to remain in an abusive situation, it is essential that they choose to do so without duress or undue influence, and are acutely aware of the risks they may encounter. Should it transpire that the individual has been threatened or coerced, safe-guarding interventions must override their decision to ensure that the safety of the individual is protected.

³ Care Act 2014 Six safeguarding principles.

⁴ Mental Capacity Act 2005

4.5 Deprivation of liberty

In addition to the MCA 2005, the practice will determine if a person is deemed to have been deprived of their liberty as detailed in the MCA 2005 Deprivation of Liberty Safeguards, published in 2009.⁵

Where it is suspected that the deprivation is unlawful, the practice will report this to the local authority within 48 hours. Additionally, the local authority has the legal power to sanction and issue a Deprivation of Liberty Safeguard Order should it be deemed necessary to restrict the freedom of an individual if it is in their best interest.

4.6 Contest and Prevent

In 2011, the government introduced the PREVENT strategy⁶ as part of the counter-terrorism strategy, CONTEST. The purpose of PREVENT is to stop individuals becoming involved in terrorism. This includes violent and non-violent extremism which can create an atmosphere conducive to terrorism.

Channel is a support programme that helps those individuals who are at risk of being drawn into terrorism. Further guidance relating to Channel can be found here: <u>Channel Guidance</u>

It is possible that staff will meet and treat people who are at risk of being drawn into terrorism, including supporting violent or non-violent extremism or being susceptible to radicalisation. if a member of staff suspects that an individual is at risk, they should speak to the practice clinical safeguarding lead or, in his/her absence, to the deputy clinical safeguarding lead. It may be necessary to contact the regional Prevent coordinator (RPC) for further guidance.

4.7 Responsibilities

Dr Moloney is the clinical safeguarding lead within the practice.

Dr Vipas is the Deputy Clinical Safeguarding Lead within the practice.

Dr Moloney is the PREVENT Lead within the practice.

Alison Addison is the administrative safeguarding lead.

The clinical safeguarding lead and deputy are responsible for all aspects of the safeguarding procedures at Hounsfield Surgery.

⁵ Deprivation of Liberty Safeguards

4.9 Common presentations which may indicate abuse

The following are potential indicators of abuse in adults at risk.

Possible indicators of physical abuse:

- Unexplained injuries or injuries inconsistent with the person's lifestyle
- Inconsistent history or a changing history
- Bruising, burns, marks, regular injuries
- Unexplained falls
- Changes in behaviour or low self-esteem
- A delay or failure in seeking medical support
- Signs of malnutrition

Possible indicators of emotional abuse:

- Low self-esteem
- Uncooperative and/or aggressive behaviour
- Resent, anger, distress
- Insomnia
- False claims to attract unnecessary treatment
- Behavioural changes when in the presence of a particular person

Possible indicators of sexual abuse include:

• Bruising to thighs, buttocks, upper arms and marks on the neck

- Torn, soiled or bloodied undergarments
- Genital pain, itching or bleeding
- Difficulty in walking or sitting
- Presence of foreign bodies
- Sexually transmitted diseases
- Pregnancy in women who are unable to consent to sexual intercourse
- Fear of help with personal care
- Reluctance to be alone with a particular person

Possible indicators of neglect:

- Dirty, unhygienic living space
- Poor personal hygiene
- Pressure sores, ulcers
- Insufficient or inadequate clothing
- Untreated injuries
- Malnutrition
- Failure to engage with social groups

Possible indicators of self-neglect:

- Unkempt appearance
- Unable or unwilling to take medication
- Extremely poor personal hygiene
- Lack of essentials (food and/or clothing)
- Hoarding
- Living in unacceptable conditions
- Malnutrition and dehydration

Possible indicators of discriminatory abuse:

- Withdrawn appearance
- Expressions of anger, frustration, anxiety or fear
- Poor support that does not meet the needs of the individual

Possible indicators of institutional abuse:

- Poor record-keeping and standards of care
- Lack of flexibility, procedures, management and support
- Inadequate staffing levels, recreational and educational activities
- Lack of choice
- Dehydration, hunger, lack of personal clothing and possessions
- Unnecessary exposure during bathing or when using the lavatory
- Lack of confidentiality
- Lack of visitors

Possible indicators of financial abuse:

- Unexplained withdrawals from accounts
- Lack of available funds
- Missing personal possessions
- Rent arrears and/or eviction notice

- Unnecessary maintenance
- Lack of receipts for financial transactions
- Persons showing an unusual interest in an individual's assets
- Lack of food, etc.

Possible indicators of modern slavery:

- Isolation
- Malnutrition
- Unkempt appearance
- Always wearing the same clothes
- Lack of personal possessions
- Unable to prove identity, i.e. lack of documentation
- Signs of physical or emotional abuse

The following are common presentations in which abuse may be suspected in a child or young person.

Possible indicators of physical abuse:

- Bruises, burns, scalds, bite marks, fractures and other injuries
- Admission by the child or young person
- Unwillingness to change into PE kit at school
- Physical signs and symptoms that could be attributed to any category of abuse and/or are inconsistent with the history given
- An inconsistent history or one that changes over a period of time
- A delay in seeking medical support
- Extreme or worrying behaviour
- Self-harm
- An accumulation of minor incidents, including repeated attendance at A&E
- Repeated attendance of a baby under 12 months of age
- Bruising or injury to a child under 24 months of age

Possible indicators of emotional abuse:

- Overly affectionate towards strangers
- Anxious or showing a lack of confidence or appears clingy
- Inappropriate language or subjects for their age
- Extreme outbursts or very strong emotions
- Showing isolation from parents or carers
- Lack of social skills or have very few friends
- Bed-wetting
- Poor attendance at school
- Insomnia

Possible indicators of sexual abuse:

- Avoidance of spending time alone with certain individuals
- Fear or unwillingness to socialise with certain persons
- Use of sexual language or knowing information that would not usually be expected
- Vaginal or anal soreness and/or discharge
- Sexually transmitted infections

- Very young girls or girls with learning difficulties or a disability requesting contraception, especially emergency contraception
- Girls under 16 presenting with pregnancy and/or sexually transmitted infections, especially those with learning difficulties, long-term illness or complex needs or disability
- Promiscuity
- Having unexplained physical injuries
- Association with groups of older people or antisocial groups

Possible indicators of neglect:

- Poor appearance and hygiene
- Inadequate clothing
- Hunger or lack of money for school meals
- Untreated nappy rash in infants
- Untreated injuries, conditions and dental cases
- Recurring illness or infection
- Tiredness
- Evidence of skin sores, rashes, flea bites, scabies or ringworm
- Left alone at home for prolonged periods
- Living in unsuitable environments, e.g. no heating or hot water
- Caring for others in the home, e.g. siblings

4.10 Actions to be taken if staff have concerns

Should any member of staff have cause for concern, they are to report this to the safeguarding lead for the practice, Dr Moloney or, in her absence, the deputy safeguarding lead, Dr Vipas. In the absence of one or both of the leads, the senior clinician present must raise the matter with the local safeguarding team. In emergency cases, a decision is to be made about contacting the police or social services.

When it is suspected that an adult at risk is suffering from abuse, staff are to:

- Remain focused
- Act in a non-judgemental manner
- Offer support, empathy and remain engaged with the individual
- Reassure the individual throughout the consultation
- Ensure that all information is recorded accurately
- Secure any evidence where possible
- Ensure that they do not give the adult at risk any promises or press them for further information

When it is suspected that a child or young person is suffering from abuse, staff are to:

- Remain focused
- Reassure the child, explaining to them that they have done the right thing and they are not to blame
- Offer support, empathy and remain engaged with the child/young person
- Explain what you need to do next
- Ensure that all information is recorded accurately, paying particular attention to dates and times of events
- Do not ask leading questions or promise confidentiality

Staff must ensure that they stay calm and liaise with the clinical safeguarding lead or nominated deputy to make certain the child, young person or adult at risk is offered the most appropriate level of care. Concerns must be discussed immediately and an action plan devised.

Staff must understand that there are circumstances where a safeguarding alert may be made without consent, e.g. circumstances involving other at-risk groups or where a crime may have been committed. Disclosing this information is referred to as a public interest disclosure to share information.

4.11 Raising an alert

When it is necessary to raise an alert, a risk assessment should be undertaken to prevent further risk of harm to the child, young person or adult at risk. The initial assessment should consider:

- Whether the individual is still at risk if they return to the place where the abuse is alleged or suspected to have taken place
- The extent of harm that is likely to occur if the child, young person or adult at risk encounters the person who is alleged to have caused harm
- Whether the alleged person still has access to the child, young person or adult at risk

Once raised, the alert will be managed by the safeguarding process which may involve liaising with additional support services to ensure the needs of the individual are met and that the risk of further harm is significantly reduced. The process will detail the actions to be taken to safeguard the individual at risk, ensuring that those involved are aware of the options available and how they can support the individual throughout the process.

4.12 Record-keeping

It is essential that all concerns, discussions and decisions are recorded in the individual's healthcare record and that the appropriate read codes are used. All correspondence relating to any safeguarding matters for a child, young person or adult at risk is to be scanned into the individual's electronic healthcare record.

Staff are to ensure that, prior to sharing information, any sensitive third-party information is redacted if necessary.

Child protection reports are also to be scanned into the healthcare record and the appropriate coding used. In such circumstances, the read code used to illustrate that the child is on a child protection plan should be entered into the notes of all individuals living at the same address.

The administration safeguarding lead will be able to advise staff accordingly if they have any queries or concerns.

4.13 Sharing of information

The sharing of information is essential in establishing early intervention and the protection of children, young people and adults at risk. Clinicians must understand the need to share information, when it should be shared and how they share the information.

Where possible, consent is to be obtained. However, the safety of the individual is paramount and where concern exists or individuals are deemed to be at risk from significant harm, then this is to be considered as the determining factor and information should be shared. Where doubt exists, the practice safeguarding lead or nominated deputy should be approached for advice.

There are seven golden rules to sharing information.⁷ They are:

- 1. Remember that the General Data Protection Regulation (GDPR), the Data Protection Act 2018 and human rights law are not barriers to justified information sharing, but provide a framework to ensure that personal information about living individuals is shared appropriately.
- 2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be, shared and seek their agreement, unless it is unsafe or inappropriate to do so.
- 3. Seek advice from other practitioners or your information governance lead if you are in any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
- 4. Whenever possible, share information with consent and, if at all possible, respect the wishes of those who do not consent to share confidential information. Under the GDPR and the Data Protection Act 2018, you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone, be certain of the basis upon which you are doing so. Where you do not have consent, be mindful that an individual might not expect information to be shared.
- 5. Consider safety and well-being: base your information-sharing decisions on considerations of the safety and well-being of the individual and others who may be affected by their actions.
- 6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those individuals who need to have it, is accurate and up to date, is shared in a timely fashion and is shared securely (see principles).
- 7. Keep a record of your decision and the reasons for it whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose.

4.14 Confidentiality

There may be on occasion a requirement to restrict access to an individual's healthcare record to only certain members of the clinical team. Care must be taken to ensure that the child, young person or adult at risk does not suffer embarrassment or humiliation.

Staff are reminded that they must not promise to "keep secrets" as there will be a requirement to share the information given by the individual. The Data Protection Act does not prevent the sharing of safeguarding information.

⁷ Information sharing advice for practitioners providing safeguarding services to children, young people, parents and carers 2019

4.15 Requests for information

At Hounsfield Surgery all requests for information which relate to any safeguarding matters are to be directed to the administration safeguarding lead who will discuss the request with the practice safeguarding lead or nominated deputy.

Requests are to be processed within 48 hours and, if this is not possible, the requesting authority is to be contacted and advised why and when they can expect the response.

4.16 Training

This practice is committed to having arrangements in place to ensure that all staff are trained effectively and to the level required commensurate with their role. This is in conjunction with the guidance given by the CQC (Nigel's Surgery 33)⁸ and the reference's intercollegiate guidance:

- Level 1 all staff including non-clinical managers and staff working in healthcare services
- Level 2 minimum level required for non-clinical and clinical staff, who, within their role, have contact with children and young people, parents/carers or adults who may pose a risk to children
- Level 3 all clinical staff working with children, young people, their parents or carers and any adult who could pose a risk to children, who could potentially contribute to the assessing of, planning, intervening in and evaluating the needs of a child or young person and parenting capacity.
- Level 4 named professionals
- Level 5 designated professionals

Safeguarding training for certain staff groups can be completed using the National Skills Academy (NSA) for Health website.

Detailed information regarding the required levels of safeguarding training for professionals is given in the intercollegiate document entitled Safeguarding Children and Young People, Roles and Competencies for Healthcare Staff, 2019, which can be accessed <u>here</u>.

4.17 Safer recruitment

Hounsfield Surgery will ensure that the appropriate pre-employment checks are carried out prior to any individual commencing work at the practice. Applicants will be required to undergo either an enhanced or standard DBS check depending on the position applied for.

It is acknowledged that the management team at Hounsfield Surgery has a legal duty to refer information to the DBS if any employee has harmed, or is deemed to be a risk of harm, to children, young people or adults at risk.

4.18 Whistle-blowing

All staff can raise any concerns they may have about a colleague's behaviour in confidence. For further information, see the practice Whistle-Blowing Policy.

⁸ Nigel's Surgery 33

S:\CQC 2019\Safeguarding policyHS2.docx

4.19 Allegations against a member of staff

All alleged allegations will be investigated thoroughly. The practice safeguarding lead is to be informed and she will consult with the local authority's Safeguarding Team (Child or Adult) and if necessary the local police. The safeguarding lead will advise the individual concerned that an allegation has been made against them, but will not disclose any information at this stage.

Such is the seriousness of any alleged allegation, the individual concerned must be managed appropriately, in accordance with practice HR procedures. Allegations do not necessarily merit immediate suspension. This will depend on the person's role within the practice and the nature of the allegation.

Allegations are distressing for all concerned, the individual, the practice staff and the alleged person. It is imperative that appropriate advice is sought from the outset. The local authority's safeguarding lead for managing allegations will be able to provide guidance to ensure that the correct process is followed.

4.20 Chaperoning

It may be appropriate to offer a chaperone for a variety of reasons. Clinicians should consider the use of chaperones for some consultations and not solely for the purpose of intimate examinations or procedures. A chaperone can be defined as "an independent person, appropriately trained, whose role is to independently observe the examination/procedure undertaken by the doctor/health professional to assist the appropriate doctor-patient relationship". Hounsfield Surgery has a separate Chaperone Policy.

4.21 Professional challenge

Professional challenge is an encouraging action taken in the best interests of the child, young person or adult at risk. It enables the challenging of decisions or actions by a member of staff if they consider the stated decisions or actions not to be effective enough for those deemed to be at risk.

Should a member of staff disagree with any element of care offered to an at-risk individual, they are encouraged to discuss their concerns with the practice safeguarding lead, their nominated deputy or the local authority safeguarding lead who will provide independent guidance. It is envisaged that most professional challenges will be resolved informally and at a local level.

4.22 Did Not Attend

Whilst it is acknowledged that there are many reasons for a child, young person or adult at risk to miss an appointment, there may be occasions when failure to attend appointments is a cause for concern. Appropriate actions can be pivotal in safeguarding the child, young person or adult at risk and, where appropriate, can trigger early interventions to reduce risk.

In known cases where safeguarding is a concern, if a child, young person or adult at risk fails to attend an appointment, it is the responsibility of the clinician at Hounsfield Surgery to try to establish contact with the relatives or carer of the patient to discover the reasons why the patient failed to attend their appointment. The child, young person or adult at risk is then to be offered another appointment based on clinical need.

To ensure those at risk are offered the most appropriate level of support, the clinician with whom the patient failed to attend is to ensure that the practice's clinical safeguarding lead is informed and that any advice given is acted upon accordingly as detailed at paragraph 4.10 of this policy. Staff must ensure that they understand their individual responsibilities which are given at paragraph 4.23.

Further information for managing children and young persons at risk who repeatedly fail to attend can be found at Annex C which also includes a "Was Not Brought" letter template.

4.23 Staff responsibilities

The following are the responsibilities of staff within Hounsfield Surgery.

The practice safeguarding lead is responsible for:

- Ensuring that they are fully au fait with the internal, regional and national policies and procedures that underpin safeguarding
- Acting as the focal point within the practice for staff who may have concerns, addressing the concerns and taking action as necessary
- Reviewing any information regarding safeguarding concerns, investigating matters further if necessary and taking the appropriate action
- Acting as the liaison between the practice and the local safeguarding teams, facilitating the sharing of information, attending multi-agency meetings and supporting any local safeguarding investigations where requested
- Processing and sharing information within the practice in the most effective manner
- Continually reviewing the practice safeguarding processes and policy, making recommendations for change as necessary
- In conjunction with the deputy safeguarding lead and practice manager, ensuring compliance with policy and process by means of audit
- Encouraging training for all staff groups
- Ensuring staff are supported appropriately when dealing with any safeguarding matter

NB: The deputy practice safeguarding lead will assume the above responsibilities in the absence of the practice safeguarding lead.

The **partners** are responsible for:

- Ensuring safeguarding children, young people and adults at risk is central to clinical governance
- Contractual compliance with clinical governance arrangements for effective safeguarding policies and procedures
- Ensuring that all staff are trained and know how to react to concerns raised and recognise potential indicators for abuse

The **practice manager** is responsible for:

- Ensuring that safeguarding responsibilities are clearly defined in the job descriptions of all staff
- Adhering to the pre-employment requirements and ensuring that an effective recruitment process is in place
- Reaffirming the significance of safeguarding to all staff within the practice

The **GPs** are to:⁹

- Take prompt action if they think that patient safety, dignity or comfort is being compromised
- Protect and promote the health of patients and the public

In addition, GPs should be afforded the necessary time to effectively contribute to safeguarding meetings, case conferences and external meetings in support of their patients.

The **practice nurse** is responsible for:

- Ensuring compliance with the NMC Code of Conduct and:¹⁰
 - Acting as an advocate for the vulnerable, challenging poor practice and discriminatory attitudes and behaviour relating to their care
 - Sharing necessary information with other healthcare professionals and agencies only when the interests of patient safety and public protection override the need for confidentiality
 - Sharing information to identify and reduce risk
 - Raising concerns immediately if they believe a person is vulnerable or at risk and needs extra support and protection

All staff have a responsibility to:

- Know how to act should they recognise potential indicators of abuse or neglect
- Understand the practice and local safeguarding policies and procedures
- Partake in meetings and case conferences when requested regarding safeguarding matters
- Attend and/or complete regular training commensurate with their role in accordance with their individual terms of reference and practice policy

4.24 Audit

To ensure compliance with this policy and the processes contained within it, the practice safeguarding lead, deputy safeguarding lead and the practice manager will ensure that regular audits are undertaken.

A toolkit of audit can be found at Annex A.

4.25 Summary

Safeguarding is the responsibility of all staff. It is a mechanism for identifying and supporting those children, young people and adults who are at risk from harm and neglect. Staff must be alert to the potential indicators and fully understand how to act if they suspect abuse or neglect. In doing so, the risk of prolonged harm and neglect will be reduced and the individuals affected will be offered the appropriate level of support and, where applicable, justice will be sought.

What to do

If you are being abused, know of someone who is being abused or think someone may be at risk, it is important that you inform the right people.

We want to reassure you that the people who you talk to will take your concerns seriously, are able to provide support, guidance and take action to ensure the safety of everyone.

Please speak to a member of staff who will help you get the help you need. All our staff are trained in safeguarding. They will support you!

What is safeguarding?

Safeguarding

Is defined as protecting people's health, well-being and human rights, enabling them to live free from harm, abuse and neglect. It's fundamental to high-quality health and social care.

Adult at risk

Is a person aged 18 or over in need of care and support, or someone already receiving care and support and as a result is unable to protect himself/herself from harm, abuse or neglect.

Child or young person

This is any person, male or female, under the age of 18 in need of care and support, or someone already receiving care and support and as a result is unable to protect himself/herself from harm, abuse or neglect.

Types of abuse

There are many types of abuse such as:

- Physical hitting, biting, shaking, pushing
- Sexual any sexual contact which is non-consensual
- Emotional humiliation, intimidation, verbal abuse
- Neglect ignoring or refusing basic care needs
- Self-neglect inability to care for oneself
- **Discriminatory** values, beliefs or culture results in a misuse of power
- **Institutional** misuse of power and lack of respect by professionals, poor practice
- **Financial** use of an individual's funds without consent or authorisation
- **Modern-day slavery** includes human trafficking, servitude and forced labour

These are just some examples of how people can be abused or neglected through actions directed towards them that cause harm, endanger them or violate their rights.

Who can abuse?

Abuse can occur anywhere, such as home, in a care setting, hospital, college, school, in public places. It could be from:

- Family members or friends
- Other patients or those at risk
- Young people
- Care workers or volunteers
- Professionals
- Strangers

Don't delay. If you suspect or know that someone is at risk of harm, abuse or neglect, report it immediately!

Safeguarding is the responsibility of everybody.

Annex C – Was Not Brought

Introduction

Repeatedly failing to attend appointments for some children or young persons may be an indicator that there is an increased safeguarding risk. At Hounsfield Surgery failure to attend in relation to a child or young person will be referred to as "Was Not Brought" or WNB. This code will be entered into the clinical notes (Xab0Q – Child was not brought to appointment). This statement clearly reflects the point that children and young people rely on their parents, carers or guardians to bring them for appointments.

Cause for concern

Whilst it is acknowledged that many missed appointments are genuine oversights, instances of repeated cancellations, rescheduling of appointments or WNBs all merit cause for concern.

The following flow diagrams detail how Hounsfield Surgery will manage such occurrences. The first flow diagram explains the steps to be taken should a child or young person not attend appointments at this practice. The second applies if a child or young person does not attend appointments following a referral, i.e. hospital appointments.

Referral

If a clinician has significant concerns, they are to initiate a child protection referral using the contact numbers detailed below. Any verbal referral is to be followed up in writing within 24 hours by the referring clinician. Where the clinician believes that harm is imminent, they should call the police immediately.

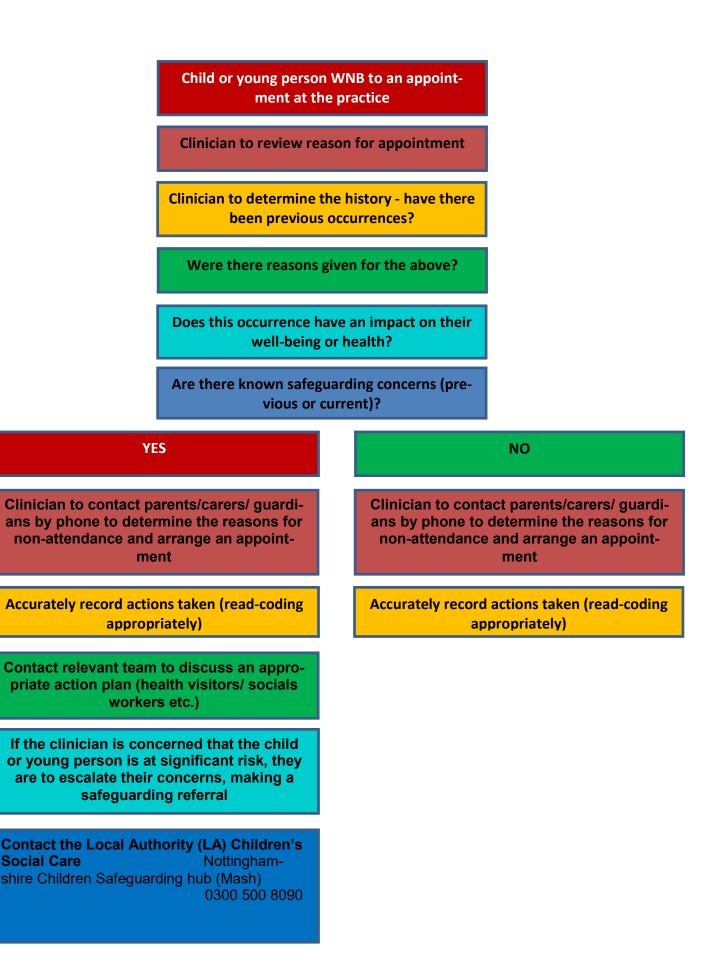

Contact numbers

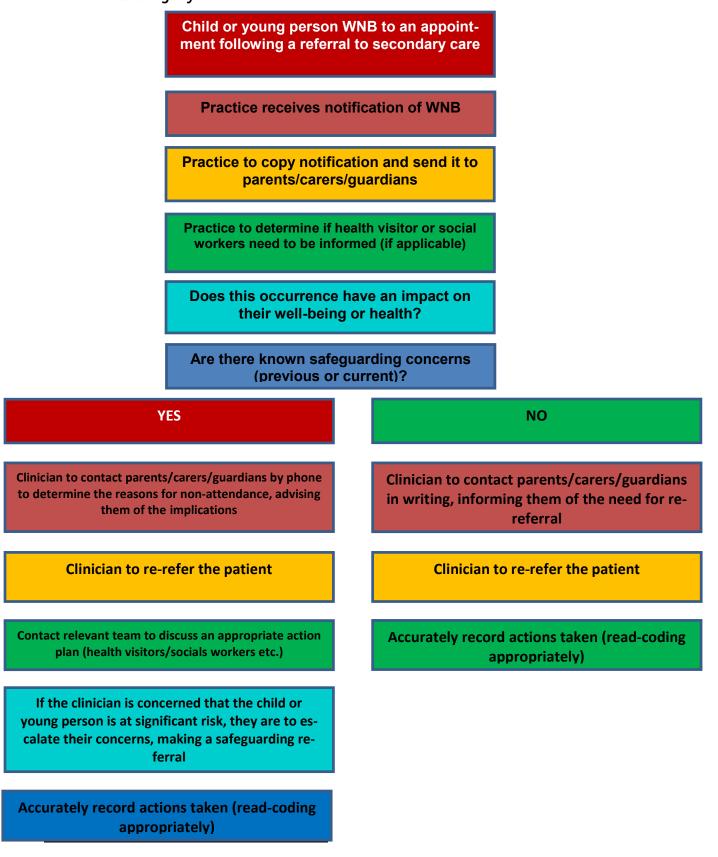

Children's Social Care Contact Centre: Nottinghamshire Children Safeguarding hub (Mash) 0300 500 8090 Emergency Duty Team: 0300 456 4546

Local Safeguarding Children Board: www.nottinghamshire.gov.uk/MASH

Record-keeping

All staff are to retain accurate records at all times, using the appropriate read codes and ensuring that all actions are annotated, outlining any actions taken.

Sample letter to send when child "Was not brought" to appointment

Hounsfield Surgery Hounsfield Way Sutton on Trent Newark NG23 6PX [Date]

Dear [insert parent or carer name],

At Hounsfield Surgery, we are committed to ensuring that all of our patients receive quality, evidence-based care at all times. Such is our desire to facilitate the effective delivery of care, we have in place policies and protocols which support our aim in achieving this.

Our Safeguarding Policy has been written to ensure that our patient population receives the necessary care and support when it is needed. As young children rely on their parents or carers to bring them for appointments, we monitor and follow up any missed appointments for children, thereby ensuring they receive the care they need, when they need it.

We note from our records that [insert patient name] missed their appointment on [insert date] at [insert time] with [insert GP name].

It is acknowledged that missed appointments can be genuine oversights, but repeated missed appointments give us cause for concern and we use the term "Was Not Brought" to describe this.

We are writing to request that you [contact the practice and arrange an appointment for [insert patient name] as soon as possible or you request that the named clinician calls you to discuss [insert patient name]. The practice telephone number is 01636 821023 or alternatively you can arrange an appointment using our online service.

Yours sincerely,
